

The Devin pool and spa value proposition in 9 key steps

Devin have delivered on over 500 swimming pool projects over the last twenty years and our value proposition working as part of a professional team is tried and tested.

1. Client focussed

As independent consultants, we are focused on the best result possible for the client

4. The right solution at the best price

Our exacting specifications level the playing field for competitive tendering; so, the right solution is achieved at the best price

7. The right subcontractors

Key experience in obtaining the right industry subcontractors

2. Avoid costly design changes

Early problem solving at RIBA Stage 2 will avoid costly design changes at later stages

5. Reduced risks

We reduce risk through early engagement, exacting specifications, detailed integration and rigorous commissioning

8. Doing what it says on the tin

Our comprehensive commissioning documentation checks functionality matches specification before handover to the Client

3. Sustainable design

Our ECO sustainability approach addresses up to 26 specific energy aspects of system design

6. Design integration

Our seamless design integration is managed with BIM using Revit

9. Team working

We work alongside the design team to RIBA stages 2-7, AIA, or RIAI equivalent
